### WHY THE FOWLER SPORT ACADEMY IS THE BEST SPORT SCIENCE AND FOOTBALL PROVIDER IN MERSEYSIDE

Why should you choose The Robbie Fowler Education Academy for your daughter or son? Apart from our proven successful track record with our students, we have been awarded **OUTSTANDING** by OFSTED on several occasions within the last three inspections for **TEACHING** and **LEARNING** over the last five years.

Making a choice of study options after school is probably one of the most important decisions to be made.

This is because the next journey could determine whether you reach your full potential. You have to trust that you are making the right decision for your future.

At the Fowler Academy you will have the choice of the following careers:

- Coaching
- Employment
- Professional and Semi Professional Football
- American Scholarships
- University

At the Fowler Sports Academy, we wanted to do things slightly differently when we opened our doors and we have. The following are the reasons why we have been so successful.

"I am extremely pleased with progress made so far at FEFA from the moment we started this journey until the present time. Our plan was always to be as strong academically as we are on the pitch. We have fantastic students who show a willingness to work hard and improve every day. Nothing makes me prouder than seeing them achieve their goals and progress into university, employment or back into football.

This couldn't happen without parental support and the fantastic staff we have at the academy.

Look forward to meeting you all this evening."

Robbie.

## EDUCATION

Students are taught by OFSTED rated Outstanding Teachers who have a wealth of experience teaching in Schools, Colleges and Universities. Your child will be taught by the best.

Ten of our first intake have already secured employment directly through us and from the qualifications they have received from us while still on their course. This is unheard of in college education.

We enrolled Level 2 and Level 3 students in our first intake. The level 2 students are now on a level 3 course with an FA level 1, lifeguard and gym instructor qualification.

From our very first intake of level 3 students, 80% are going to university. This is way above the national average. We are confident that those students will go on to achieve fantastic results at university. They can still earn through the employment they have gained through the qualifications they received from us.

We offer the following qualifications:

- Level 3 BTEC Sport and Exercise Science Extended Diploma
- Level 3 BTEC Sport Extended Diploma
- Level 2 BTEC First Diploma
- Fitness Diploma
- Football Studies
- Personal Trainer
- Gym Instructor
- Lifeguard
- FA Level 1 Coaching Certificate
- FA level 2 Coaching Certificate

The level 3 BTEC qualifications are the equivalent of three A levels. Both will give progression into University. Sport and Exercise will provide a pathway into Physiotherapy and other non-related sports degrees. The following degrees are examples of what can be studied:

We are the **ONLY** college in the UK to offer these qualifications. This gives your Son / Daughter a huge advantage when leaving us and progressing onto the next step.

We have outstanding, experienced staff. We have earned the trust we have gained from the Professional Footballers Association (PFA), Professional Rugby Players Association (PRA), schools and numerous Universities because of the quality staff we have and the solid track record we have created.

### EXIT ROUTE

The exit route for the Extended Diploma is University. The varied routes our students have taken include the following:

- Coaching
- Personal Training
- Lifeguard
- Sport and Exercise Science
- Sport Science
- Sport Psychology
- Football Analyst
- Physiotherapy
- Sport Therapy
- Football Science
- Podiatry
- Sport Psychology
- Nutrition
- Coaching Science
- Strength & Conditioning
- Teaching
- Law Degree

## FOOTBALL

Our coaches have unique experience with professional and semi-professional football. They have the following qualities:

- UEFA A Licence qualified
- Former Professional Footballers
- Coached at LFC academy
- Manage and coach at Semi Professional football clubs

We play at the highest level possible in college football below a professional academy. We regularly play academy teams as well as our regular league and national cup fixtures. We have already built a reputation of playing attractive football and developing players, from our fourth to our first team. Our teams have been extremely successful in a short space of time.

Despite being released from Tranmere FC, Declan Daniels, has gone into the world of professional football signing for Ipswich Town FC. This happened in less than a year.

Presently we have:

- Seven students involved at semi professional first team level of which four are still under 17's!
- Four students representing the County under 18 squad
- Students attracting the attention of Professional Football Clubs

Unfortunately, the chances of securing a professional football contract if you haven't been offered a scholarship are very slim. In fact, less than 0.5% of students at colleges will be offered one. It is important therefore to have qualifications for University, American Scholarships and Employment.

Gordon Taylor, the PFA Chief Executive, has endorsed FEFA. This shows the trust that professional bodies have in us.

### LFC AND MAN CITY ACADEMY VISIT

These placements are a fantastic opportunity for our students to learn in a professional environment. We've also been lucky that our second year students have gained valuable work experience at the Academy.
